Look & Feel

We urge all exhibitors to consider how best to create an outstanding brand experience within their stand. The whole look and feel of your stand should be well thought out and planned. Some things to consider:

- Signage / printed materials for backdrops
- Interactive elements eg entertainment
- Display of your product
- Ways to convey your message

If you would like more information or to discuss, please contact the organisers.

Attaching to your Shell Scheme Do's and Don'ts

Please DON'T attach to the shell scheme panels, metal framework or fascia using the following:

- Nails
- Screws
- Glue
- Paint
- Racking attached to the shell scheme (must be self-supporting)

Please DO use the following methods to attach to the panels of your stand

For fixing light exhibits/small graphics

- Two-part (hook & loop) Velcro
- Blu-tack
- Double sided sticky pads

For heavier exhibitors and larger graphics

- Brackets and clips (bookable via Full Circle using the order form) are available to attach panels, shelves, signs etc

Exhibitors must not hang ANYTHING from the ceiling grid without having first consulted with Full Circle to ensure that the weight loading and fixing is satisfactory and will not alter the structural stability of the stand.

Important information	<ul style="list-style-type: none"> • Exhibitors may NOT request their fascia to be removed from their stand without the prior consent of the Organisers; the fascia is integral to the structural stability of the stands and may only be removed in exceptional circumstances and where the stand layout allows sufficient stability • Exhibitors are NOT permitted to change the colour of the fascia board. This has been designed for a consistent look throughout the show. • Any damage will be charged to the exhibitor at full replacement cost. • <i>Power feeds on stands: For electricity to be supplied, each block of stands must have a mains box through which power is supplied from the floor duct to the fittings. If the presence of a mains cable and box on your stand is unacceptable you must inform Full Circle prior to the event and they will try to avoid locating it on your stand if possible, this cannot be guaranteed. Changes on site to mains supplies are not usually possible</i>
